

Precision Rolled Strip

Arnold Magnetic Technologies Rolled Products Division is a global leader in the manufacturing of precision rolled magnetic materials.

We offer:

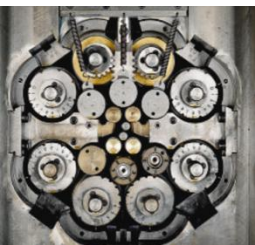

- Market leader in price and delivery
- High performance, high efficiency silicon steels (ASTM A348)
- World class quality: AS9100 Certified
- Strip widths available from 0.02" to 16.5"
- 4 week lead time on standard offerings
- Vanadium cobalt alloys available

	Tolerances			
	Core Loss	Burr	Flatness	
Standard Materials	Arnnon 5	5.5 w/lb. @ 1.0 T 400 Hz	.0005" max	.070" per inch of width
	Arnnon 7	6.5 w/lb. @ 1.0 T 400 Hz	.0007" max	.070" per inch of width
	Grain Oriented 6 mil	9.0 w/lb @ 1.5 T 400 Hz	.0006" max	.070" per inch of width
	Grain Oriented 4 mil	6.5 w/lb. @ 1.5T 400 Hz	.0004" max	.030" per inch of width

Advantages

- Design and Material Analysis Available
- Wide Range of Materials
- 70 Years of Experience
- Online Technical Data Downloads
